THE ULTIMATE HEAVY DUTY SOLUTION

STONE FLOOR

The Ultimate Heavy Duty Solution

Is Your Flooring Built For The Harsh Australian Climate?

Australia's Oceanic Climate is characterised by cool and wet Winters followed by hot, dry and humid Summers. Under these unstable conditions, traditional floor coverings are simply not ideal; resulting in many conventional flooring issues such as expansion and contraction, fading and discolouration.

StoneFloor is an innovative, high quality product engineered specifically for the Australian Climate. Enjoy a New Style of Living.

More than Just a Product

WHY YOU SHOULD CONSIDER STONE FLOOR?

Built to Last

Not many products out there can cope with the harsh Australian climate; from the roaring Summers to the frosty Winters. StoneFloor is built to excel in these conditions offering minimal expansion and contraction.

Built to Outperform

StoneFloor is the Culmination of 20+ Years of Industry Experience and Constant Research and Development. It has undergone extensive testing to ensure it outperforms its flooring counterparts.

Built for a Hassle-Free Lifestyle

Worry less about your flooring with StoneFloor. Easy to Clean and Maintain. Perfect for children and pets!

Superior Thermal Stability

Engineered to withstand extreme levels of sunlight with minimal Expansion and Contraction. The Perfect Product for the Australian Climate.

100% Waterproof

Accidents do happen. Say goodbye to headaches with StoneFloor. Our products are 100% Waterproof, not just water-resistant.

Stain and Scratch Impervious

StoneFloor is all about a head-ache free lifestyle. Heavy-duty and Built to Last. Built to meet both residential and commercial building standards. In addition, our special surface treatment makes it anti-skid.

Sound Absorbing

Solid 8mm thick. StoneFloor is not just tough, it excels in absorbing sound. Making it perfect for apartments. Say goodbye to strata issues and complaints.

Easy to Clean

Being 100% Waterproof, cleaning and maintaining StoneFloor is a true ease. Clean with just a wet mop and keep that new look for many years to come.

Extremely Low Formaldehyde Emission

With our technologically advanced manufacturing process, StoneFloor achieves an E0 rating, ensuring it is safe for you and your family.
